Home learning EG

We love to see any other work you do at home.

Autumn 1 Home Learning – Year 1

Reading Read your school books to practise the sounds you have been learning at school. Can you spot any tricky words in your book? You can also share your Love of Reading book with an adult! Reading regularly is fundamental at this early stage of children's education. Lots of reading helps boost their self-confidence and enhances their love of reading. 	Maths  Can you practise your number formation using these rhymes? You can find them on our website! Can you remember all the rhymes? Challenge: How many different ways can you represent numbers to 20 using real life objects e.g. conkers.
Topic Our topic this term is SUPERHERO ME!  Can you design your own superhero and write about your special super powers?	Science  Can you go on a walk and spot signs of autumn? Can you use pine cones, twigs, leaves, stones or anything you can find to make a picture? This is called transient art; it's art that you can move! You can make lots of different pictures.
Music  What is your favourite song? What do you like about it? Can you hear any high or low notes in the song? Can you see if you can clap along to the beat? Please tell us your favourite song so that we can add it to our class playlist!	Geography  Can you draw your route to school on your own birds eye map? What key features do you pass on your way?
