## Weekly Green Thing!

*“How can we save energy in our house?”*  
(Turning off TVs, closing doors, wearing jumpers)

**Fact:** Turning off lights and appliances when they're not in use saves energy and helps lower household energy bills too - good for the planet and for families.

## Did you know?

Turning off a TV at the switch (instead of leaving it on standby) saves energy - and children love being “energy helpers” at home.

## Community News

### ADHD support
