Weekly Green Thing!

“What food do we eat that comes from plants or farms nearby?”

(Fruit, vegetables, gardens, shops, markets).

Fact: Fruit and vegetables grown locally don't have to travel as far to reach our plates, which means less fuel is used. Eating more plant-based foods also helps care for the environment.

Did you know?

Food grown closer to home doesn't need to travel as far, which means fewer lorries on the road and cleaner air.

Community News

Children eat for free or £1
